@Happeh, I love what you said about having OCs to reinforce it. Apparently even ships like Anemone X Tamarin are *canon*

Agreeing with Ishmael here. Someone gets decapitated: Oh okay that's good for kids. A gay character: WAY OVER THE LINE HOLD UP
Anemone has already been confirmed to be gay, and I believe the next protagonist is LGBTQ as well? Correct me if I'm wrong on that. Kids should be exposed to different people early, because otherwise they may bottle up things inside, and that's something that really *isn't* okay.

I mean...if you really don't like that people are just trying to be themselves and find support here, then just avoid the threads with that sort of stuff, or just avoid the forums altogether

Honestly! If an 11 year old girl who is terrible at english tries to make a speech on what she thinks is right, there are going to be mistakes and she is going to be hated. I just think the forums wold be better if people kept things simple. I have said what I want to say, and if you don't like it thats FINE. I'm not starting a war and I will not be posting here again if you really need to talk to me on this, go to my homethread.

@Necro, My sister hadn't learned any of this and I really hope she isn't in a group like that, not to be offensive. She wouldn't be able to handle it. My mom for one probably would have never let me on here if she knew what it was like. But that's just my family and our beliefs

It's not that inappropriate at all, really. For a lot of people, it's an important part of their identity and even at our age, it's good to be educated about stuff like this. I learned about the existence of LGBTQA+ through the Internet and the news at a time when I didn't really understand the concept. Now, I do, and I don't think it's okay to label this as something that's not for kids, because it's a normal part of our society now and they'll know anyways. Also, like a lot of people said, a lot of parents aren't okay with that, and sometimes a person needs to talk about it with someone who actually understands them. And yeah, for shipping purposes also.

@Reading, Yeah. Same with mine. I have the same beliefs and I don't want to offend others who support LGBTQ+. (I don't support it, but I hope you all respect my choice just as I do with yours)
